Active Ingredient:
Copper Sulfate Pentahydrate* ........................................................................................................................................................................ 99.0%
Other Ingredients .................................................................................................................................................................................................. 1.0%
Total: 100.0%

* Metallic copper equivalent 25.2%

- Algae Control in Impounded Waters, Lakes, Ponds and Reservoirs
- Algae and Pondweed Control in Irrigation Conveyance Systems
- Control Root Growth in Sewers
- Wood Treatment to Prevent Fungus, Decay and Rot
- Tadpole shrimp control in rice fields
- Fungus control in various crops as Bordeaux mixture
- Vine Kill in potatoes
- For Manufacturing, Repacking, Formulation of Algaecides, Fungicides, Wood Preservatives and Also Non-pesticidal Uses*

* Each formulator using this product to formulate an end use pesticide product is responsible for obtaining an EPA registration for his end use product.
